## ABSTRACT

*Première conférence en ligne du cycle "Paris IAS Ideas", avec la participation de Juan Pablo Caceido, Universidad Javeriana, Colombie*

In 2020 Claudia López's administration presented an unprecedented approach to urban infrastructure planning in Colombia. The Green Corridor on Carrera Séptima redefines urban transportation by prioritizing sustainable mobility over conventional public transport. By designating more than half of the road space to pedestrian-friendly areas, cycling lanes, and efficient public (electric) transportation, we are reclaiming the streets for the most vulnerable citizens, such as pedestrians, seniors, and children. This initiative not only incorporates social dialogue but also tackles the pressing challenge of climate change, shaping public decision-making from a different priority scale.

While this initiative began as a project, his long-term vision is to evolve it into an institutionalized process that encompasses public engagement and serves as a replicable model worldwide. Drawing inspiration from the City of Paris' "15-minute city" framework, he firmly believes that green corridors can serve as a multidisciplinary, participatory design method that facilitates sustainable mobility, modal shift, and the re-naturalization of public spaces wherever political will aligns with these priorities.

The fellowship at the Paris IAS will allow this research project the invaluable opportunity to delve deeper into these topics as well as space to synthesize experiences

into a comprehensive paper. Collaborating with the Institute's behavioral, cognitive, and social scientists, will enable to shape this transformative project into knowledge that can inform urban planning policies across the globe.

The banner features a yellow background with a black top and bottom border. On the left, the text "Paris IAS Ideas" is written in a dark blue serif font, accompanied by a lightbulb icon with radiating lines. To the right is the circular logo of the Institut d'Études Avancées de Paris (IEA), which includes the text "IEA PARIS" and "INSTITUT D'ÉTUDES AVANÇÉES DE PARIS". Below the main title, a circular portrait of Juan Pablo Caicedo is shown. To his right, the event title "Reimagining Urban Transportation: Green Corridors as Catalysts for Materializing a 15-minute City in Bogotá" is displayed in a bold, dark blue sans-serif font. Underneath the title, the speaker's name "Juan Pablo CAICEDO" and affiliation "Universidad Javeriana (Colombia) - City of Bogotá" are listed in a smaller, dark blue sans-serif font. The bottom section of the banner is divided into two parts: on the left, the date "Friday September 8, 2023" is followed by time zones for New York, London, Paris, Delhi, Beijing, and Tokyo, and the note "Online on Zoom"; on the right, a QR code is provided next to the text "Please register here in advance to receive a Zoom link:" and the URL "http://bit.ly/IASIdeas", with a note "Available using QR Code".
